PROMOTION OF MR. MOORE

New Chief Engineer of Manchester Water Works.

CHILDERS SUCCEEDS HIM

Entertainment for Benefit of Daughters of Liberty-Street Improvements. Death of Mr. Wood-Miss Brown Returns-Personal Notes.

Manchester Emeau Times-Dispatch, }
No. 1102 Hull Street.

Mr. Mike J. Moore, of the pump house. the position of chief engineer, made vacant, by the recent resignation of Mr. Phil. Browder.

Mr. John Childers, formerly connected with the department, has been chosen to fill the place vacated by Mr. Moore. "A NOBLE OUTCAST."

Mr. Tom Charles has made arrangements with Mrs. Annie L. Pugh, recording secretary of Select Council, No. 25, Daughters of Liberty, to present with "The Ideal Merrymakers" Mr. John A. Fraser's beautiful melodrama entitled "A Noble Outdast," for the benefit of the Daughters of Liberty, at Leader Hall,

"A Noble Outcast," for the beneat of the Daughters of Liberty, at Leader Hell, April 17th.

The company will be composed of all the old favorites, who have been so successful with the Charles and Earley's Merrymakers, and will still be under the singe direction of Tom Charles. Several new features have been added to this company, which will be mentioned in the near future.

"A Noble Outcast" is an old and well known drama, which has enjoyed many prosperous seasons on the road. The story possesses an intense dramatic interest that is keenly aroused at the rise of the curtain and deepened with each succeeding act. Pervaded with a quaint humor, the movement rushes along without any talky drag. Each act is worked up, with well contrived incidents and thrilling situations to a powerful ending, and the climax is reached in an easy natural way. The play is truthful and lifelike in its portrayal of the scenes, the characters and incidents daily met with in the varied life of a great city.

STREET IMPROVEMINYTS.

True to its intention, the Street Committee is making many needed improvements all over the city.

At the next meeting of this committee hids for big improvements on Semmes and Stockton Streets will be opened, and permanent improvements will be made, much to the gradification of residents of both streets and the city in general.

DIED TO SAVE OTHERS.

It was learned yesterday that Con-ductor T. J. Wood, who was killed in the Clopton yards, was endeaving to adjust a switch that was cen and which would have thrown the Cannon Ball off the track. He had flist put the switch to rights when the train came up, and had not time to get out of the way.

way.

The funeral took place from MeadeMemorial Church at 2 o'clock yesterday
afternoon, and the interment was in
Maury Cemetery.

HAS RETURNED.

Misses Maybelle Brown, daughter of
Mr. and Mrs. J. H. Brown, who went to
Richmond several days ago without telling, her parents where she had gone, has
returned. She went to the home of a
friend, Mrs. Childress, There was rejoicing at her return.

Mrs. Mary A. Craig and daughter are spending a month in Florida.

Committee Decides to Buy New Appa-

ratus-Street Sweepers Arrive. Following the precedent established by

the Sanitary Department of Washington, the Council Committee on Health last ton, the Council Committee on Health last night at the suggestion of Henry Cohn, superintendent of the Street Cleaning Department, decided to purchase four bag carriers (two-wheel wagen arrangement), in which it is proposed to remove the garbage and accumulation of refuse from Broad Street. It was also decided to purchase sacks sufficient to supply the

wagons.
At the invitation of Superintendent
Cohn, the committee adjourned to meet
this afternoon at Bank and Ninth Streets,
when a public exhibition of the two new

when a public exhibition or the two new atreet-sweeping machines, recently purchased, will be made.

The machines arrived here yesterday by the Old Dominion Line from New York. They cost \$450 each.

Mr. Hundley Back. Hon. George Y. Hunley, member of the House from Gloucester, has returned from his home, where he has been detained for some days by slokness, and where he went to attend his court,

CRUSHED

Count Elliot Zborowski Killed The System Employed in the in Automobile Accident.

CHAUFFEUR WAS INJURED AN EXPLANATION IS GIVEN

The Count Was Going at Full Speed in Contest Against Time Over a Very Dangerous Piece of Road When

the Accident Happened.

(By Associated Press.)
NICES, FRANCES, April i.—Count Edilot Zborowski, of New York, was killed today in an automobile hill climbing race
between here and La Turbel. His
chauffeur, Baron D. Pallange, was seriously injured.

The course, which is 15 kilometres long,
is known as being most dangerous. It
runs round sharp corners along the road
leading from Nice to Genon. It was
covered by last year's winner under soventeen minutes.

The accident courred during one of the
trials along what is known as the Cor-

enteen minutes.

The accident occurred during one of the trais along what is known as the Cornish stretch. Just at the moment the vehicle reached an abrupt angle the oar struck a small rook in the pathway, causing a sudden swerve which precipitate dthe two men against a wall. Zhorowski appears to have struck head first, as his skull was smashed in by the violence of the shock. Although the Baron was also hurled against the wall he did not strike on his head.

Zborowski, who expected to cover the course in fifteen minutes, had a machine weighing 1,000 pounds. He leaves a widow, but no children.

The body of Court Zborowski was brought to the chapel of his chateau here, and his wife was notified. When she arrived at the chapel an affecting scene took place.

took place.

The trip to-day was the first Zborowski had made over the route, and he was not acquainted with its dangers. His machine was going at a speed of 90 kilonatres at the time of the accident.

The committee in charge of the race, have postponed the event.

DEAF MUTE WHO

Had Religion and Sermons

Born in New York.

(By Associated Press.)

NEW YORK, April 1.—Count Elliot Zborowski was born in this city. The Zamily came to this country from Poland, and became wealthy through real estate transactions. Elliot Zborowski married, the divorced wife of the Baron De Stuers, at one time Dutch Minister to France. She is the daughter of James Carey, of Gloux Falls, B. D., and a granddaughter of William B. Astor.

RIVER SITUATION

Break at Hymelia is Being Repaired. Conditions Improving.

Conditions improving.

(By Associated Press.)

NEW ORLEANS, LA., April 1.—The crisis at Hymeila crevasse will come within the next twelve hours with the sold of the cribbing now steadily approaching each other. All day long the work went forward without mishap. It will take, perhaps, a week to make the work perfectly secure. The water covering the plantations in the vicinity of the break was reported to have fallen several inches, indicating that the cribbing and sacking had materially reduced the flow through the break.

No depressing news reached here today from other sections of the Louisiana line. Unremitting labor is maintaining the embankments on both sides of the river. The river here to-day was stationary at 20.2. How much effect the closing of Hymeila break will have on the lower levee cannot be stated until the work at the break is completed.

tur of the church, his relatives and two young ladies of a family he frequently visited have all been talking to him through the medium of signs and gestures. A few nights ago, during the revival being conducted at the church by the Rev. C. C. Coleman, of West Washington, young Goode professed conversion. One of the young ladies referred to gave him the signal when to go forward. Last night he was baptized, with several others. His father and a brother were with him.

The services at Broadus Memorial continue with great success. Mr. Coleman will preach each night this week. A service will be hold this morning at 10:30 o'clock, instead of the regular afternoon meeting at 3 o'clock.

C. & O. OFFICIALS **GATHER HERE**

The Division Superintendents Meet the General Manager for a Conference.

The division superintendents of the Company, of this city, were the lowest bidders on the contract for excavaling and concreting an immense filtration plant at Washington, the firm yesterday afternoon received from Lieutonant-Colonel Millor a telegram announcing that the War Department had awarded the contract to them. Operation will be under-Chesapeake and Ohio Railway Company are now in the city to meet with and be advised by the general manager of the road. It is not a formal meeting, but from time to time the general manager calls in these officials for a conference. The specific business could not be war Department had awarded the contract to them. Operation will be undertaken within thirty days from date.

The bid of the local firm was \$987,-504, and the fact that they were the successful contractors will be learned with pleasure in Richmond, as it shows that firms in this city are sufficiently strong to compate with the best of them from all over the country.

The firm announces that they will personally attend the work, and that a large force of hands will be taken from Richmond and gathered in Washington to push the construction. The job must be completed by contract not later than December, 1904. The specific business could not be learned. It is possible that the summer schedules are being alsoussed. It is not improbable also that the rate of pay of conductors during the next twolve months will be discussed before the division officials leave here. These gentlemen are Messrs. J. W. Knapp, Richmond during the Westers. men are Messes. J. W. Knapp, Rominon division; E. W. Grices, Clifton Forge division; H. Pierce, Greenbrier division; J. H. Carlisle, Huntington division, and Mr. Broughton, Kentucky division.

City is Excellent.

The Article of Mr. Griswold Does Not Go Far Enough to Put the Matter in Its Proper Light.

between the Richmond Water Department Insurance Company, seem to show conclusively that this city is not behind others in the matter of fire protection.

Mr. Griswold has taken the ground that the water supply of Richmond is entirely inadequate for the Fire Department to successfully cope with a conflagration in any thickly built-up section of Rich-

The main allegation in the attack is that many of the fire-plugs are connected with pipes only three or four inches in

NOT WHOLE TRUTH.

This statement was true, but it did not go far enough to convey the whole

This statement was true, but it did not go far enough to convey the whole truth. Down Cary, Main and Broad Streets run huge mains. A portion of the way they are sixteen inches in diameter, and thereafter tweive inches. From each hydrant runs a short pipe three or four inches in diameter, connecting directly with the large main.

It will thus be seen that while it is a fact that small pipes are connected with the hydrants, yet for all practical purposes they have direct access to the large mains, and in case of a fire the supply cannot fail until the big main is exhausted—something that could not occur. Germane to this portion of the subject is the method employed here in case of fire. In some cities fire engines are not needed. The source of the water supply is so elevated that it is only necessary to ditach lines of hose to the fireplugs, and gravity does the rest.

PRESSURE ON MAINS.

In other cities, Atlanta for instance, pressure is put on the mains by huge engines at the pump-house. This is regarded as dangerous, since there is always a chance that the mains may burst.

In this city the water is sucked up from the mains by vengines, as it runs

In this city the water is sucked up

MORE NORMAL SCHOOLS

Dr. Robert Frazer Makes Strong Address Before Committee.

The House Committee of Schools and Col-leges held a meeting yesterday afternoon and heard a strong speech from Dr. Ro-hort Frazer in favor of the establishment of additional normal schools in Wrginia. The address was one of much ability, and

NEW INSURANCE BILL REPORTED

The Committee Adopts Substitute for the Sale Measure.

The first definite move looking to the enactment of a general insurance law by the present General Assembly came last night, when the Roads and General Laws Committees of the House, sitting jointly reported the Caton substitute for the

committees of the House, sitting jointly, reported fine Caton substitute for the Sale general bill, which has already passed the Senate.

The bill of Mr. Caton is a voluminous document, and covers one hundred and forty-two typewritten pages.

It embodies some of the features of the Sale measure, but is much more farreaching in its provisions.

It creates a Department of Insurance, to be under the supervision of the Sale Corporation Commission, and then goes on to adjust all the present laws on the subject of insurance to meet new constitutional conditions. The commissioner is to receive \$2,500 per year salary and have \$3,000 for contingent expenses. This money is to be raised by a tax of one-tenth of one per cent, on the gross premium receipts of companies doing business in this State.

Colonel Joseph Button, the present clerk of the Senate, is said to be in the lead for commissioner, though there are soveral other strong candidates. Every safeguard is thrown around the law so as to protect the State from wildcat companies, and the bill places many restrictions upon companies not contained in the Sale bill.

Indications are that it will pass the House as soon as it is reached on the

A Beautiful Society Matron's Recovery.

ways a chance that the mains may burst.

In this city the water is sucked up from the mains by engines, as it runs down a gentle declivity.

By reason of the various levels upon which flichmond is built, it has several sources of supply. Main and Cary Streets and Fulton receive their water from the Old Reservoir, while Broad Street and Church Hill are supplied by the New Reservoir. Valves in the pipes in the city separate these supplies and resultate them. In case of a confingration in the lower section of the city it would be only necessary to remove, a valve, and the supply of water from both reservoirs would be at once available.

The point has been made that on the occasion of the Jofferson Hotol fire the water supply was not adoquate. Some ton years ago the Fire Department actor years ago the Fire Department actory years ago as mot done in all cases, and in consequence some of the plugs became choked with mud and trash. This was the case at the Jefferson fire of the Richmond Water Works, standshigh as an authority on all matters connected with his profession, which is active of the fact that he served a term two years ago as president of the American Witter Works Association, a place linter filled by Mr. Hill. of New York, head of the Aqueduct Commission, Mr. Boiling has just replied to the strictures of Mr. Griswold on Richmond's system is perfect, but each year he is judiciously expending money in bringing it nearer to that state, The Finance Committee has been quite liberal of late, and the work is going visorously forward.

MORE NORMAL SCHOOLS The Peruna Medicine Co., Columbus, O.

Mrs. J. E. Finn, 82 East High Street, vice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, C.

"I had often heard of Peruna as an excellent tonic, so I bought a bottle to see what it would do for me, and it certainly took hold of my system and rejuvonated it, and in less than two months I was in perfect health, and now, when I feel worn out or tired, a dose or two of Peruna is all that I need."—Mrs. J. E. Finn.

Brooch Were Carried Away.

During his absence from the city, burgilars broke into the residence of Dr. W. J. Maybee, superintendent of the Children's Home Society of Virginia, and when he and his wife returned from the Southwest over the Norfolk and Western yesterday they found their household goods turned topsyturyy. A trunk had been broken and ransacked, and \$30 and a brococh were missing.

Dr. Maybee is cortain that the burgilar effected an entrance to his residence by means of a false key.

The Doctor and his wife had been on a tour of the Southwest, where they had a very pleasant time. Several little ones were brought back by them.

DOING FINE BUSINESS

New Homestead and the Jefferson Are Prospering-People Going North.

Prospering—People Going North.

It is said that not in the history of the Hot Springs resort has the patronage of the hotels been so large as at present. A great many Northern people are there now, resting up from the winter's work or trying to miss "that thred feeling" of the spring. The resort is very beautiful just now in the first touch of spring. Special trains have been run from Washington to the resort to accommodate the crowds, and the regular trains are constantly crowded with guests for the New Homestead and other hotels.

The Jefferson here is also setting a fine share of putronage. Northern people are returning leisurely from the South and the fine accommodations of this excellent hostelry are inducing them to remain much longer in many instances than they first intended. The hotel is not crowded and good accommodations are found for all who come. The table and sorvice of the hotel were never better and that is saying a great deal.

MR. MARROW WANTS THEM

After the Academy Musical Comedy

Company for Charlotte.

Manager W. D. Marron, of the Charlotte Theatre, was in the city last night to make arrangements to take "Leath's Heanty Show." otherwise the Academy Musical Comedy Company, to his city for a week at the close of the season here.

Desirable Residence to be Sold. lead for commissioner, though there are several other strong candidates. Every safeguard is thrown around the law, so as to protect the State from wildest companies, and the bill places many restrictions upon companies not contained in the Sale bill.

Indications are that it will pass the House as soon as it is reached on the calendar,

THE RESTAURANT COMMITTEE MET

Some Thirty Dollars And a Many Donations Are in Sight for the Confederate

The ladies of the Restaurant Co sinstic meeting at noon yesterday in the hall of the Women's Christian Association, at which the chairman, Mrs. W. M. Wade,

The reports of the chairmen of the ferent committees as to donations referent committees as to donations received and promised were very encourage ing, and all the members are working energetically and expect to accompiliate a great deal during the next two week prior to the opening of the basaar. The Aragon Company, with their accustomed generosity, have donated all the coffect to be used in the restaurant, and also the services of an expert in coffee making so that the patrons of "The Waysde Inn' will be served with the choicest coffee delictiously prepared.

Mrs. Wade has called a meeting of the young ladies who are to assist in the restaurant for Monday evening at 6 o'clock in the Women's Christian Association building.

A full attendance is requested, as instructions will be given as to the coestumes to the bazaar will be on saile.

Other important matters will be discussed at this meeting. All who have promised to send donations, or who contemplated oing so, are requested to notify either the chairman, Mrs. W. M. Wade, No. 18 East Main Street, or the secretary, Mrs. William J. Frizpatrick, No. 1017 Farth Avenue, as soon as possible, which day they will send their contributions, so that the laddes may make their arrangements accordingly. ceived and promised were very encourage

PERSONAL EXPLANATION.

PERSONAL EXPLANATION.

To the public:
My name appeared yesterday in a local in connection with certain funeral arrangements in my charge. Upon making inquiry as to the cause of same, the clerk in The Times-Dispatch office, who received the funeral notice for publication stated to me that it was oustomary in the city from which he came for the undertaker's name to be published with such notices and for that reason mine was attached in this case. As this is not the custom in Richmond, axcept in cases of casualties, I take this method of explaining to the public that the use of my name was without my knowleading or consent.

Respectfully,

Respectfully, CHARLES J. BILLUPS.
Richmond, Va., April 1st.

A CLEAR BRAIN nd healthy body are essential for success. Business men, teachers, students, hussewives and other workers say Hood's Euraparilla gives them appetite and strength, and makes their work seem easy, it overcomes that tired feeling.
